< Hiring of 2027 DNV Korea Approval Expert Summer Internship>

1. About DNV

DNV is an independent expert in assurance and risk management, operating in more than 100 countries. Founded in 1864 and headquartered in Oslo, Norway, we are driven by our purpose to safeguard life, property, and the environment. Through deep industry knowledge and technical and digital expertise, we help customers make critical decisions with confidence and improve safety, performance, and sustainability.

As the world's leading classification society and a recognized advisor to the maritime industry, DNV also provides testing, certification, technical advisory, software, and cybersecurity services across a wide range of industries. Our values—**We care, We dare, We share**—guide how we work, collaborate, and develop solutions to address global transformations

1. About DNV Korea and ACK

DNV Korea is engaged in classification activities covering newbuilding, certification of materials and components, and vessels in operation, providing services to the world's largest and most technologically advanced shipyards in Korea and shipowners in the world.

Based in Busan, **DNV Approval Centre Korea (ACK)** is part of DNV's global maritime approval network, providing design review and plan approval services for ships, marine systems, materials, and components. Working closely with shipyards, shipowners, equipment manufacturers, and DNV colleagues worldwide, we assess technical designs against applicable classification rules and statutory requirements to support maritime safety and environmental performance.
